INDEPENDENT AUDITOR'S REPORT

BOARD OF TRUSTEES
CRETE PUBLIC LIBRARY DISTRICT

I have audited the combined financial statements of the Crete Public Library District for the year ended June 30, 1990, as listed in the foregoing table of contents. These financial statements are the responsibility of the District's management. My responsibility is to express an opinion on these financial statements based on my audit.

Except as discussed in the following paragraph, I conducted my audit in accordance with generally accepted auditing standards. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. I believe that my audit provides a reasonable basis for my opinion.

The Library does not record acquisition of books, periodicals, and other similar library materials as fixed assets which is required by generally accepted accounting principles. The effect of this departure from generally accepted accounting principles has not been determined.

In my opinion, except for the general fixed asset group of accounts on which I am unable to express an opinion, the combined financial statements referred to above present fairly, in all material respects, the financial position of Crete Public Library District at June 30, 1990, and the results of its operations for the year then ended in conformity with generally accepted accounting principles.

CRETE PUBLIC LIBRARY DISTRICT
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 1990

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

FUNDS

The accounts of the District are organized on the basis of funds and account groups and include all the activities of the District based on manifestations of oversight, scope of public service and special financing arrangements. A fund is defined as an independent fiscal and accounting entity with a self-balancing set of accounts recording cash and/or other resources together with all related liabilities, obligations, reserves and equities which are segregated for the purpose of carrying on specific activities or attaining certain objectives in accordance with special regulations, restrictions or limitations. Refer to Note 2 for a description of the funds utilized by the District.

BASIS OF ACCOUNTING

The following funds are maintained during the year by the District largely on a cash basis. At the end of the year, the financial statements are converted to the modified accrual basis by journal entries:

General Fund
Special Revenue Funds
Fiduciary Fund

Under such modified accrual basis, all major revenues are recorded when susceptible to accrual, (both measurable and available) and expenditures are recorded at the time liabilities are incurred. Accordingly, the District accrues the following:

Property tax revenues are recognized in accordance with the requirements of Interpretation three issued by the National Council on Governmental Accounting (NCGA).

The personal property replacement tax is recorded as revenue in the same year as the monies are collected by the State of Illinois.

The District provided vacation and sick pay benefits to its employees. These expenditures are accrued when incurred. As of June 30, 1990, there was no accumulated unused vacation or sick pay.

BUDGETING (APPROPRIATION)

The District prepares its budget for all governmental fund types in conformity with practices prescribed or permitted by the applicable statutes of the State of Illinois. As prescribed by the statutes,

the District in its budgeting process includes as a resource (amount available for current expenditures) a portion of the fund balance that has been accumulated in prior years.

Formal budgetary integration is employed as a management control device during the year for the General Fund and Special Revenue Funds.

The District's fiscal year begins July 1 and ends on June 30. Its procedures for adopting the annual budget which follows statutory requirements are composed of the following stages:

- a) Department heads propose expenditure estimates for the coming year. These estimates, if approved by the Library Director, become her recommendations for presentation to the Board of Trustees as the tentative combined Annual Budget and Appropriation Ordinance.
- b) Notice is published in the paper that the tentative Annual Budget and Appropriation Ordinance is available for public inspection. The Ordinance is then presented at a public meeting after thirty days have passed.
- c) Immediately after the public meetings, the Board of Trustees adopts the Ordinance in final form, and it is published to meet statutory requirements.
- d) The Annual Budget and Appropriation Ordinance executory phase is performed by the Library Director and department heads, and commences July 1.
- e) The Library Director is authorized to transfer budgeted amounts between departments, within any fund, with the approval of the Board of Trustees.
- f) Appropriations lapse each June 30.

Although the budget is principally prepared on a cash basis, the differences from generally accepted accounting principles are not material.

General fixed assets purchased are recorded as expenditures in the governmental fund types at time of purchase. Such assets are capitalized in the general fixed assets group of accounts at historical cost. No depreciation has been provided on general fixed assets.

TOTAL COLUMNS ON THE COMBINED STATEMENTS

Total columns on the combined statements are captioned Memo Only to indicate that they are presented only to facilitate financial analysis. Data in these columns do not present financial position,

results of operations, or changes in financial position in conformity with generally accepted accounting principles. Neither are such data comparable to a consolidation. Interfund eliminations have not been made in the aggregation of these data.

2. DESCRIPTION OF FUND AND ACCOUNT GROUP STRUCTURE

The various funds are summarized by type in the financial statements with homogenous funds being combined to provide a more meaningful presentation. The following funds and account groups are used by the District.

GOVERNMENTAL FUNDS

GENERAL FUND

Established to account for the general operating fund of the District. It is used to account for all financial resources except those required to be accounted for in another fund.

SPECIAL REVENUE FUNDS

AUDIT FUND

Established to account for audit fees and the annual property taxes specifically levied to fund those costs.

PUBLIC LIABILITY FUND

Established to account for annual liability insurance costs and the annual property taxes specifically levied to fund those costs.

WORKMEN'S COMPENSATION FUND

Established to account for annual workmen's compensation insurance costs and the annual property taxes specifically levied to fund those costs.

ILLINOIS MUNICIPAL RETIREMENT FUND

Established to account for annual pension costs and the annual property taxes which are specifically levied to fund pension costs in accordance with statutory requirements. The taxes are paid to the Illinois Municipal Retirement Fund.

SOCIAL SECURITY FUND

Established to account for the District's annual cost of participation in social security and the annual property taxes which are specifically levied to fund those costs.

UNEMPLOYMENT COMPENSATION FUND

Established to account for annual unemployment compensation insurance costs and the annual property taxes specifically levied to fund those costs.

LIBRARY BUILDING AND SITE FUND

Established to account for the purchase of sites and buildings, for the construction and equipment of buildings, for the rental of buildings required for library purposes, and for maintenance, repairs, and alterations of library buildings and equipment, and the annual property taxes specifically levied to fund those costs.

SPECIAL RESERVE FUND

Established for the accumulation of the unexpended balance from the proceeds received from the corporate taxes. These funds are to be accumulated and set aside for the purchase of sites and construction and equipment of buildings for library purposes.

FIDUCIARY FUNDS
-----DEVELOPMENT TRUST

Established to account for assets held by the District in a trustee capacity for individuals and private organizations. The Development Trust Fund is an Expendable Trust and is accounted for in essentially the same manner as a governmental fund.

GENERAL FIXED ASSET GROUP OF ACCOUNTS

The accounting and reporting treatment applied to the fixed assets associated with a fund are determined by its measurement focus. Governmental funds are accounted for on a spending or "financial flow" measurement focus. This means that only current assets and current liabilities are generally included on their balance sheets. Their reported fund balance (net current assets) is considered a measure of "available spendable resources".

Governmental fund operating statements present increases (revenues and other financing sources) and decreases (expenditures and other financing uses) in net current assets. Accordingly, they are said to present a summary of sources and uses of "available spendable resources" during a period.

Fixed assets used in governmental fund type operations (general fixed assets) are accounted for in the General Fixed Assets Account Group, rather than in Governmental Funds. All Fixed Assets are valued at current market value if historical cost is not available. No depreciation has been provided on general fixed assets.

The account group is not a "fund." It is concerned only with the measurement of financial position. It is not involved with measurement of results of operations.

Noncurrent portions of long-term receivables due to governmental funds are reported on their balance sheets, in spite of their spending measurement focus. Special reporting treatments are used to indicate, however, that they should not be considered "available spendable resources," since they do not represent net current assets. Recognition of governmental fund type revenues represented by noncurrent receivables is deferred until they become current receivables.

3. CASH AND INVESTMENTS

The common cash and investments of the District at June 30, 1990 were stated at cost which approximates market as follows:

American National Bank		
Checking Account	\$	65,900
United Bank of Crete-Steger		
Checking Account		763
Illinois Public Treasurer's		
Investment Pool		228,022

	\$	294,685
		=====

4. CHANGES IN GENERAL FIXED ASSETS

A summary of changes in general fixed assets follows:

	Balance July 1, 1989	Additions	Dispositions	Balance June 30, 1990
	-----	-----	-----	-----
Land and Building	\$ 60,826	\$ -	\$ -	\$ 60,826
Furniture and Equipment	257,217	3,698	-	260,915
	-----	-----	-----	-----
	\$318,043	\$ 3,698	\$ -	\$321,741
	=====	=====	=====	=====

5. LONG-TERM DEBT

The District entered into an agreement on May 18, 1988 with the Suburban Library System to purchase a computerized circulation control system for \$ 18,000 with a variable rate of interest equal to the daily rate equivalent of 85% of the prime rate. Principal payments of \$ 300 per month are due over five years. Interest per month is computed on the unpaid principal balance. At June 30, 1990, the principal balance was \$ 10,800.

6. DEFINED BENEFIT PENSION PLAN

The employer contributes to the Illinois Municipal Retirement Fund ("IMRF"), an agent-multiple-employer public employee retirement system that acts as a common investment and administrative agent for 2,464 local governments and school districts in Illinois. The employer's total payroll for the year ended December 31, 1989 was \$ 102,793. Of this amount, \$ 88,995 in payroll earnings were reported to and covered by the IMRF system.

All employees hired in positions that meet or exceed the prescribed annual hourly standard must be enrolled in IMRF as participating members. Pension benefits vest after eight years of service. Participating members who retire at or after age 60 with 8 years of credited service are entitled to an annual retirement benefit, payable monthly for life, in an amount equal to 1 2/3 percent of their final rate of earnings, for each year of credited service up to 15 years, and 2 percent for each year thereafter. IMRF also provides death and disability benefits. These benefit provisions and all other requirements are established by state statute.

Participating members are required to contribute 4.5 percent of their annual salary to IMRF. The Employer is required to contribute remaining amounts necessary to fund the System, using the actuarial basis specified by statute.

RELATED PARTY TRANSACTIONS

There were no securities of the Employer and related parties included in the System's assets.

FUNDING STATUS AND PROGRESS

The amount shown below as the "pension benefit obligation" is a standardized disclosure measure of the present value of pension benefits, estimated to be payable in the future as a result of employee service to date. The measure is intended to help users assess the funding status of IMRF on a going-concern basis, assess progress made in accumulating sufficient assets to pay benefits when due, and make comparisons among employers. The measure is the actuarial present value of credited projected benefits prorated on service and is independent of the funding method used to determine contributions to IMRF.

The pension benefit obligation was computed as part of an actuarial valuation performed as of December 31, 1989. Significant actuarial assumptions used in the valuation include (a) a rate of return on the investment of present and future assets of 7% a year compounded annually, (b) projected salary increases of 3.75% a year compounded annually, attributable to inflation, (c) additional projected salary increases of 1% a year, attributable to seniority/merit, and (d) postretirement benefit increases of 3% annually.

Total unfunded pension benefit obligation applicable to the Employer's employees was \$ 17,643 at December 31, 1989, determined as follows:

Pension benefit obligations:	
Terminated employees not yet receiving benefits	\$ 0
Current employees-	
Accumulated employee contributions including allocated investment earnings	7,280
Employer-financed vested	0
Employer-financed nonvested	25,662

Total pension benefit obligation	32,942
Net assets available for benefits at cost (market value is \$ 16,766).	15,299

Unfunded pension benefit obligation	\$ 17,643
	=====

The pension benefit obligation applicable to retirees and beneficiaries currently receiving benefits is not included in the above schedule due to the fact that this obligation was transferred from the Employer to IMRF as a whole when the annuity became payable.

Changes* in the actuarial assumptions, benefit provisions, and methodology are reflected in the December 31, 1989 pension benefit obligation shown above. This amount has been calculated by the I.M.R.F. Actuary using the measure described above. The dollar effect of these changes on the pension benefit obligation was not economically determinable by I.M.R.F.

ACTUARIALY DETERMINED CONTRIBUTION REQUIREMENTS AND CONTRIBUTIONS MADE

The I.M.R.F. funding policy provides for actuarially determined monthly contributions at rates that will accumulate sufficient assets to pay benefits when due without having to be increased for future generations of taxpayers. The contribution rate for normal cost is determined using the entry age normal actuarial funding method. I.M.R.F. used the level percentage of payroll method to amortize the unfunded liability over an open-ended 40 year period.

The significant actuarial assumptions used to compute the actuarially determined contribution requirement are the same as those used to compute the pension benefit obligation as described in Funding Status and Progress above.

The contributions by the Employer to IMRF for 1989 of \$ 5,063 were charged to the Employer's account and were based on a contribution rate that was calculated in accordance with actuarially determined requirements computed through an actuarial valuation performed as of December 31, 1987. The contribution consisted of (a) \$ 6,176 normal cost (6.94% of 1989 covered payroll) (b) \$(2,064) amortization of the unfunded actuarial accrued liability (-2.32 percent of 1989 covered payroll) and (c) \$ 952 death and disability cost (1.07% of 1989 covered payroll). The employer contributed \$ 5,063 (5.69% of 1989 covered payroll); employees contributed \$ 4,004 (4.5% of 1989 covered payroll).

Changes* in the actuarial assumptions, benefit provisions, and methodology which took place in 1987 and explained below, are incorporated in the 1989 to 1991 employer contribution rates. Seperate dollar effects of each change were not economically determinable by IMRF.

OTHER INFORMATION

For the year ended 1989, available assets were sufficient to fund 46.44% of the pension benefit obligation. Unfunded pension benefit obligation represented 19.82% of the annual payroll for participating members covered by IMRF for 1989. Showing unfunded pension benefit obligation as a percentage of annual covered payroll approximately adjusts for the effects of inflation for analysis purposes. In addition, for the year ended 1989 the contributions to IMRF, all made in accordance with actuarially determined requirements, were 5.69% of annual covered payroll.

*DIGEST OF CHANGES:

Three areas of change discussed below have been incorporated in the 1990 and 1991 employer contribution rates and in the December 31, 1989 pension benefit obligation. The changes due to actuarial assumptions will be phased into the employer contribution rate over a 3-year period, (1989-1991), for those employers that have 6 or more employees and have positive net asset balances, and over a 2-year period for all other employers.

The following changes in actuarial assumptions were based upon the 1984-86 experience study: (1) A single assumed retirement age for all employees has been replaced by rates which vary by age. (2) The 1983 Group Annuity Mortality Table has been adopted for use in mortality rate calculations for female employees and annuitants. The 1971 Group Annuity Mortality Table, actuarially adjusted to reflect actual experience has been retained for male employees and annuitants. (3) Disability rates have been decreased to reflect actual experience.

(4) Salary rate growth has been increased from 4.5% to 4.75%. (5) Termination rate assumptions have been modified to set up distinct rates for employees with 5,6, or 7 years of service.

The following statutory benefit changes, resulting from the passage of Public Act 85-0941, will have been implemented in 1988: (1) The 3% annual increase to retired members has been extended to surviving spouse annuitants and to members receiving total and permanent disability payments. (2) The \$1,000 death benefit payable to the survivor of a retired member has been increased to \$3,000. Beginning January 1, 1988 the cost of this benefit will be amortized by inclusion in the retirement contribution rate and removed from the pooled death and disability contribution rate. (3) The early retirement pension discount has been reduced from 1/2% to 1/4% per month.

ANALYSIS OF FUNDING PROGRESS

Year	(1) Pension Benefit Obligation	(2) Assets at Cost	Percent Funded (2)/(1)	(3) Unfunded Pensn Oblig (1)-(2)	(4) Annual Covered Payroll	Unfunded as Perct of Payroll (3)/(4)
1989	32,942	15,299	46.44%	17,643	88,995	19.82%
1988	19,134	6,937	36.25%	12,197	74,391	16.40%
1987	0	0	0.00%	0	0	0.00%

7. OTHER REQUIRED INDIVIDUAL FUND DISCLOSURES

Generally accepted accounting principles require disclosure, as part of the Combined Statements - Overview, of certain information concerning individual funds including:

A. Excesses of Expenditures over appropriations in individual funds:

NONE

B. Deficit fund balances of individual funds:

NONE

SUPPLEMENTAL

BOARD OF TRUSTEES
CRETE PUBLIC LIBRARY DISTRICT

My examination was made for the purpose of forming an opinion on the general purpose combined financial statements taken as a whole. The following supplemental financial information is presented for purposes of additional analysis and is not a required part of the basic financial statements. Such information has been subjected to the auditing procedures applied in the examination of the basic financial statements and, in my opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole.
